POLICY ON CUSTOMER SERVICE AND GRIEVANCE REDRESSAL MECHANISM

In the present scenario of competitive Banking excellence customer service is the most important tool for sustained business growth. Customer complaints are part of the business life of any corporate entity. Bank continue to provide an increasing number of financial services and products; hence they face the challenge of integrating these disparate systems into a coherent and efficient infrastructure, while delivering the highest level of customer service and convenience without exposing their customers to the Bank's internal / external issues/problems.

With the opening up of the economy, customer satisfaction has acquired new meaning and different dimensions. Moreover, the customer preferences are changing at a rapid pace and their service level expectations are increasing. In order to cater to the changing preferences and to survive in the midst of intense competition, Banks are bound to provide suitable level of services as per the customer needs.

Customer complaints are part of the business life of any corporate entity. This is more so in Banks because Banks are service organizations. As a service organization, customer service and customer satisfaction are the prime concern of any Bank.

Our Bank believes that providing prompt and efficient service is essential not only to attract new customers, but also to retain existing ones. This policy document aims at minimizing instances of customer complaints and grievances through proper service delivery and review mechanism and to ensure prompt redressal of customer complaints and grievances. The review mechanism helps in identifying shortcomings in product features and service delivery, since customer dissatisfaction would spoil Bank's name and image.

The Bank's policy on grievance redressal follows the under noted principles.

- ‡ Customers are to be treated fairly at all times
- ‡ Complaints raised by customers are dealt with courtesy and on time.
- ‡ Customers are to be fully informed of procedure and process to escalate their complaints/grievances within the organization and their rights to alternate remedy, if they are not fully satisfied with the response of the Bank to their complaints.
- ‡ Bank will treat all complaints efficiently and fairly as they can damage the Bank's reputation and business, if handled otherwise.
- ‡ The Bank employees will work in good faith and without prejudice to the interests of the customer.

In order to make Bank's redressal mechanism more meaningful and effective, a structured system needs to be built up towards this end. Such system would ensure

that the redressal sought is just and fair and is permissible within the given framework of rules and regulation. The policy document would be made available at all branches. All employees will be made aware about the Complaint handling process.

1. The customer complaint arises due to:

- a. The attitudinal aspects in dealing with customers
- b. Inadequacy of the functions/arrangements made available to the customers or gaps in standards of services expected and rendered.

Customers' needs are basically,

- Speed
- Timeliness
- Accuracy
- Courtesy
- Concern

The customers are having full right to register their complaint, if they are not satisfied with the services provided by the Bank. They can give their complaint in writing, orally or over telephone. If the complaints are not resolved within given time or if they are not satisfied with the solution provided by the Bank, they can approach the Banking ombudsman with their complaint or other legal avenues available for grievance redressal.

2. Internal Machinery to handle Customer complaints/ grievances

a) Registration of complaints

A customer, if not, satisfied with the services of the branch or has a grievance can lodge a complaint at the branch by giving a written letter to the branch manager/officer and obtain the acknowledgement. Customers can also write to the respective Nodal Officer at their regional office / Principal Nodal Officer at Corporate Office, as provided on the Bank's website, in case they are not satisfied with the resolution provided by the branch.

In order to facilitate and early resolution of complaints received through various forums, an in-house LVBNET tool has been developed and launched to all branches / offices, which will help to track and resolve complaints easily. Also an Online Complaint uploading / tracking facility has been given in our website for customers.
